Teesside Multi-Agency Public Protection Arrangements (MAPPA)

Annual Report 2014 - 2015
As Chair of the MAPPA Strategic Management Board in Cleveland, I would like to welcome you to the Teesside MAPPA Annual Report for 2014-15 and to all of the work of the Criminal Justice Agencies across the area.

This will be my first year as MAPPA Chair, but from past experience of the fantastic efforts of those working under MAPPA – I know that residents across Teesside have been kept safe from harm. I would like to thank Jenny Mooney for her excellent contribution as MAPPA Chair in previous years.

This is the second year in which we have had the benefit of a lay advisor to the Board and you can find more detail of this work in the report.

The MAPPA process works by agencies joining together and sharing information to protect members of the public by monitoring offenders within the community.

During the year, the Strategic Management Board was notified of one serious further offence by a Level 2 offender.

Where offenders have been found in breach of any of their restrictions, action has been taken which has resulted in some offenders being returned to custody.

I hope this annual report will be informative and useful, and provides reassurance that well-established structures exist to monitor offenders in the community, which minimise risk and help to keep people safe. I look forward to working with agencies to protect the public over the coming year.
Protection Communities Through Sharing Knowledge

The Teesside MAPPA annual report 2014-15 covers the successful management of public protection issues in Hartlepool, Middlesbrough, Redcar and Cleveland, and Stockton.

There is an established partnership between the three responsible authorities - the prison, police and probation services - which has continued to grow since MAPPA was introduced on Teesside in 1997. The report also highlights the role of the duty to co-operate agencies and it is the sharing of knowledge between all these organisations which enables the effective management of offenders who pose the highest risk of harm in our communities.

MAPPA Strategic Management Board

The MAPPA Strategic Management Board (SMB) reviews reports on levels of MAPPA activity and monitors trends in numbers of offenders and levels of meetings held. Each meeting also receives an anonymous case study, which highlights lessons to be learnt as well as examples of best practice that need to be shared and built upon.

Key Achievements 2014-2015

There have been a number of achievements in the last year, most notably:

- All MAPPA cases reviewed within required timescales
- Excellent inter-agency working at all levels
- Good links between the SMB and local safeguarding boards
- Ongoing engagement with Cleveland’s Police and Crime Commissioner
- Close working with Durham Strategic Management Board
- Continuation of the lay adviser to the SMB

Priorities 2015 – 16

The priorities for Teesside MAPPA for 2015 – 2016 are:

- Keeping the public safe from risks posed by violent and / or sexual offenders,
- Building on professional practice through identification and implementation of learning locally and nationally,
- Identifying and managing any emerging gaps in service provision as a result of efficiency savings,
- Improving third sector engagement and support,
- Recruiting a further Lay Adviser to the SMB,
What is MAPPA?

MAPPA background

(a) MAPPA (Multi-Agency Public Protection Arrangements) are a set of arrangements to manage the risk posed by the most serious sexual and violent offenders (MAPPA-eligible offenders) under the provisions of sections 325 to 327B of the Criminal Justice Act 2003.

(b) They bring together the Police, Probation and Prison Services in each of the 42 Areas in England and Wales into what is known as the MAPPA Responsible Authority.

(c) A number of other agencies are under a Duty To Co-operate (DTC) with the Responsible Authority. These include Children and Adult services, CCGs, Youth Offending Teams, Jobcentre Plus and Local Housing and Education Authorities.

(d) The Responsible Authority is required to appoint two Lay Advisers to sit on each MAPPA area Strategic Management Board (SMB) alongside senior representatives from each of the Responsible Authority and duty to co-operate agencies.

(e) Lay Advisers are members of the public with no links to the business of managing MAPPA offenders and act as independent, yet informed, observers; able to pose questions which the professionals closely involved in the work might not think of asking. They also bring to the SMB their understanding and perspective of the local community (where they must reside and have strong links).

How MAPPA works

• MAPPA-eligible offenders are identified and information about them is shared by the agencies in order to inform the risk assessments and risk management plans of those managing or supervising them.

• In the majority of cases that is as far as MAPPA extends but in some cases, it is determined that active multi-agency management is required. In such cases there will be regular MAPPA meetings attended by relevant agency practitioners.

• There are 3 categories of MAPPA-eligible offender: Category 1 - registered sexual offenders; Category 2 – (in the main) violent offenders sentenced to imprisonment for 12 months or more; and Category 3 – offenders who do not qualify under categories 1 or 2 but who currently pose a risk of serious harm.

• There are three management levels intended to ensure that resources are focussed upon the cases where they are most needed; generally those involving the higher risks of serious harm. Level 1 involves ordinary agency management (i.e. no MAPPA meetings or resources); Level 2 is where the active involvement of more than one agency is required to manage the offender but the risk management plans do not require the attendance and commitment of resources at a senior level. Where senior oversight is required the case would be managed at Level 3.

MAPPA is supported by ViSOR. This is a national IT system for the management of people who pose a serious risk of harm to the public. The police have been using ViSOR since 2005 but, since June 2008, VISOR has been fully operational allowing, for the first time, key staff from the Police, Probation and Prison Services to work on the same IT system, thus improving the quality and timeliness of risk assessments and of interventions to prevent offending. The combined use of ViSOR increases the ability to share intelligence across organisations and enable the safe transfer of key information when these high risk offenders move, enhancing public protection measures. All MAPPA reports from England and Wales are published online at: www.gov.uk
About MAPPA in Teesside

In Teesside, a joint Police and Probation Public Protection Unit exists which promotes the joined up working between agencies that makes MAPPA a success.

The Unit is recognised as an example of good practice by other police and probation areas across the country.

Along with Cleveland Police and National Probation Service, HMP Holme House and HMP Kirklevington Grange make up the responsible authorities and the organisations work closely together to manage risk.

On 1st June 2014 Durham Tees Valley Probation Trust was replaced by the creation of a new National Probation Service (NPS) and the Durham Tees Valley Community Rehabilitation Company Limited (DTVCRC).

The NPS now has responsibility for the supervision of all high risk and very high risk offenders as well as the completion of all initial assessments and provision of information to sentencers, whilst the CRC retains responsibility for managing low and medium risk of harm offenders along with the provision of accredited programmes and the resettlement of prisoners.

Both organisations are represented on the Strategic Management Board and continue to work collaboratively with all community partners to ensure that risk is effectively managed.

Duty to co-operate agencies also have a valuable part to play in the process of managing offenders, they are the local authority social care services, youth offending teams, health services including mental health, local education authorities, Jobcentre Plus, local housing authorities, electronic monitoring providers and registered social landlords.

The priority will always be the safety of the public, and by working in partnership with other agencies under MAPPA, the arrangements continue to ensure that offenders living in this area are managed effectively.

The level of risk to communities from dangerous offenders remains small, and the objective of this report is to reassure the public of the commitment to keeping neighbourhoods safe.

The Child Sex Offender Disclosure Scheme continues to provide an extra layer of protection where parents, carers and guardians can apply for information about whether individuals who have regular contact with their children are registered sex offenders.

Under the scheme, a number of disclosures have been made and safeguarding action taken to protect children and the Protecting Vulnerable People team has received national recognition for its work on the scheme.
The Ministry of Justice requires each MAPPA SMB to appoint lay advisers to serve for a minimum period of three or four years. They are recruited locally and undergo national training and local induction. Lay advisers act as ‘critical friends’ of the MAPPA process. Anyone wishing to find out more about becoming a lay adviser should call Detective Chief Superintendent Peter McPhillips on 101

I’m two years into my role as Lay Adviser and I feel much more confident to be able to make a worthwhile contribution to the work of the Teesside MAPPA and have been greatly encouraged by the way in which my comments have been received.

I see currently three key strands to my role as a critical friend to MAPPA.

1) To observe due process, to ask the question WHY and to constructively challenge decisions which I feel are not consistent with the principles of assuring public safety
2) To assure the public that all appropriate steps are being taken in an even-handed manner to ensure that reoffending by people with a record of violence and or sexual assault within our community is prevented wherever possible.
3) Many of the member agencies are undergoing radical organisational changes in the way they are expected to deliver safe and cost effective service. I see my role in supporting the change process as highlighting pinch points which may have an adverse impact on the delivery of public protection.

The time commitment is not arduous, I normally sit in on one MAPPA meeting per month, and also I am a member of the MAPPA Strategic Management Board which meets four times a year and also a member of the performance review sub group.

The support I have been given both locally and nationally in helping me better understand what my role is and what it is not has been invaluable.

I look forward to the appointment of a second Lay Advisor and would be happy to discuss my role in greater detail with prospective applicants.
### MAPPA Statistics

**Total number of Registered Sexual Offenders per 100,000 population**

This figure has been calculated using the Mid-2014 Population Estimates: Single year of age and sex for Police Areas in England and Wales; estimated resident population, published by the Office for National Statistics on 25 June 2015, excluding those aged less than ten years of age.
Explanation commentary on statistical tables

MAPPA background

The totals of MAPPA-eligible offenders, broken down by category, reflect the picture on 31 March 2015 (i.e. they are a snapshot). The rest of the data covers the period 1 April 2014 to 31 March 2015.

(a) MAPPA-eligible offenders – there are a number of offenders defined in law as eligible for MAPPA management, because they have committed specified sexual and violent offences or they currently pose a risk of serious harm, although the majority (x% this year) are actually managed under ordinary agency (Level 1) arrangements rather than via MAPP meetings.

(b) Registered Sexual Offenders (RSOs) – those who are required to notify the police of their name, address and other personal details and to notify any changes subsequently (this is known as the “notification requirement.”) Failure to comply with the notification requirement is a criminal offence which carries a maximum penalty of 5 years’ imprisonment.

(c) Violent Offenders – this category includes violent offenders sentenced to imprisonment or detention for 12 months or more, or detained under a hospital order. It also includes a small number of sexual offenders who do not qualify for registration and offenders disqualified from working with children.

(d) Other Dangerous Offenders – offenders who do not qualify under the other two MAPPA-eligible categories, but who currently pose a risk of serious harm which requires management via MAPP meetings.

(e) Breach of licence – offenders released into the community following a period of imprisonment of 12 months or more will be subject to a licence with conditions (under probation supervision). If these conditions are not complied with, breach action will be taken and the offender may be recalled to prison.

(f) Sexual Offences Prevention Order (SOPO) – a court may make a SOPO at the time of dealing with certain sexual offenders or when the police make a special application on account of the offender’s behaviour in the community. The full order lasts for a minimum of five years, and can last indefinitely. A SOPO will require the subject to register as a sexual offender and can include conditions, for example to prevent the offender loitering near schools or playgrounds. If the offender fails to comply with (i.e. breaches) the requirements of the order, he can be taken back to court and may be liable to up to five years’ imprisonment.

(g) Notification Order – this requires sexual offenders who have been convicted overseas to register with the police, in order to protect the public in the UK from the risks that they pose. The police may apply to the court for a notification order in relation to offenders who are already in the UK or are intending to come to the UK.

(h) Foreign Travel Orders – these prevent offenders with convictions for sexual offences against children from travelling abroad where this is necessary to protect children from the risk of sexual harm.
